

# Jardín de Aridane

Jardín de Aridane is a small, exclusive holiday resort with two bungalows for 3 respectively 4 persons and one apartment for 1 to 2 persons.

Our property is located just outside El Paso on the sunny west side of the Isle, quite close to Los Llanos and the beaches near Tzacorte and Puerto Naos. A trip to the amazing State Park "Caldera de Taburiente" is only 10 car-minutes away.

*Make yourself at home*

*Comfortable beds for a good night sleep*

You live in a very quiet environment, yet centrally located to all "must see" attractions, with shopping possibilities and numerous restaurants, serving local or international dishes, nearby.

The water for our swimming pool comes right out of the mountains and has so-called drinking quality. The pool is solar-heated, which enables usage all year round.

Agreeable temperatures and subtropical plants will immediately bring you in the right bathing mood and invite you to dreamland. Vacation at its best - here you'll find quietness and contemplation.

*Large terraces with ocean and mountain view*

All the kitchens are fully equipped, even with an espresso maker.

*Enjoy the comfort and quietness*

*Relax in the sun and enjoy our pool*

There are many good and often fairly priced restaurants in the neighbourhood.

*Stylish ambience and tranquility*

Jardin de Aridane is an officially registered vacation resort and managed by the owners themselves, under the harsh supervision of the tourism authorities. So you can definitely be reassured, that our buildings and facilities are in accordance with the actual European security standards.

*Romantic hideaways ...*

*... throughout the park*

# La Isla Bonita

None of the neighbouring islands disputes La Palma's right to this epithet. The island impresses by its unbelievable natural variety. Lush green banana-plantations, laurel and pine forests, volcano mountains with Alpine heights, deep ravines and cliffy shores, spoiled by an all-year-round mild climate.

Escaped from concrete blocks and mass tourism, the traditional architecture and rural lifestyle has well-survived on La Palma. Excessive nightlife, hurly-burly or beach parties are quite rare to find, but

*Picturesque architecture*

on the other hand plenty of peace and leisure, like the Palmeros are demonstrating it with their quite cool attitude. hand plenty of peace and leisure, like the Palmeros are demonstrating it with their quite cool attitude.

Lying in a lazy chair at the black lava beach, or discover the island by hiking or mountainbiking - La Palma has much to offer.

Hiking on La Palma is enjoyment pure, but there are plenty of other opportunities to spend your vacation.

*Soft sandy lava beaches*

We have nice beaches, maybe not as big as on the larger Canarian Islands, but all are very clean - and so is the water.

There is enough space for everybody to spread out. And those looking for solitude, will most certainly find a small, secluded bay.

## La Palma

*Pool-Terrace with ocean view*

*Spectacular sunsets*
